

**Geographic Call Termination Rates
Effective 1st April 2011**

Pursuant to the Significant Market Power (“SMP”) services condition BC2¹ obligations applicable to Gamma Telecom Holdings Limited (“Gamma”), subject to the terms of the applicable Gamma Interconnect Agreement, the rates for the termination of calls to our UK Geographic ranges² (details available from OFCOM³ or on application) for directly interconnected parties are a maximum as follows;

Peak	Off Peak	Weekend
0.003881	0.001777	0.001399

Denominated in GBP per minute and variable upon 1 days notice to be published on the Gamma website (<http://www.gammatelecom.com/>)

Whereby;

“Peak” is the period of time between 0800 and 1800 on Monday to Friday.

“Off Peak” are the periods of time not being either Peak or Weekend.

“Weekend” is the period of time between 2400 on Friday and 2400 on Sunday.

Gamma charges are calculated using a rate per minute or part thereof for all Geographic calls. Calls are billed in one second units. The individual calls are rounded up to the next £0.0001 and total call charges rounded to the nearest £0.01.

Please direct queries relating to this and interconnection requests in the first instance, to

Joe Kelly, Commercial Manager (Interconnect & Technical)
