

COMMUNICATOR

WHAT IS COMMUNICATOR?

Communicator is a hosted telephony system designed for single and multi-site small businesses that offers powerful end user and system features to improve the productivity and image of the customer's business and at the same time reduce the overall cost of service delivery and support.

sites that work together. Communicator is capable of running a 200+ employee system.

It also becomes highly regarded in vertical markets where image to end-user is important, i.e. travel companies, sales organisations or departmental groupings such as public service or support companies.

THE BENEFITS OF COMMUNICATOR

- ☀ Improves your customer service and professional image, giving you access to voicemail, auto attendant and hunt groups – Customers' calls will never be lost
- ☀ The service provides hot desking facilities ensuring that a user's personal settings and features are available from ANY phone in the company, including those working from home
- ☀ FREE site to site calls
- ☀ Saves manpower and costs in managing telephony – Scalable for new employees
- ☀ Lower Call Costs
- ☀ No major capital outlay on hardware or maintenance costs
- ☀ Business Continuity support to provide continuous service in the event of an emergency
- ☀ The ability to keep the existing Customer number range and for that range to be supported on the Hosted Platform

Gamma Telecom has taken the hassle out of managing the hardware needed to make businesses telephone systems leading-edge, feature rich and cost effective.

HOW DOES IT WORK?

Dedicated IP phones or analogue phones via an adaptor connect to the service. Each site is then connected to the Gamma Hosted Solution via IP connections (LLU , ADSL or SDSL), allowing all incoming and outgoing calls to be supported from a centrally hosted solution.

WHO DO I SELL IT TO?

Communicator is aimed at a variety of target audiences; by size it is ideal for companies with 3-50 employees in a head office with 2 or more

SO, DO YOU WANT....?

- √ **Lots of advanced calling features**
- √ **Financial savings & Productivity improvements**
